

SUPPLY OF ALCOHOL TO UNDER 18S

Under 18s face many decisions, one of which is their decision to drink alcohol.

Being a parent or carer of a teen can be a challenging time.

Secondary supply laws came into effect on 20 November 2015 making it illegal to provide under 18s with alcohol in private settings without parental consent.

To raise awareness of the laws and help parents and teens make smart choices around alcohol, we are planning an awareness campaign and are keen to hear from you.

Parents and carers of teenagers are invited to join us for an informal chat to help us plan an effective campaign. Bring your smartphone or tablet to participate in an anonymous opinion poll.
